Catalogo *Old Models*

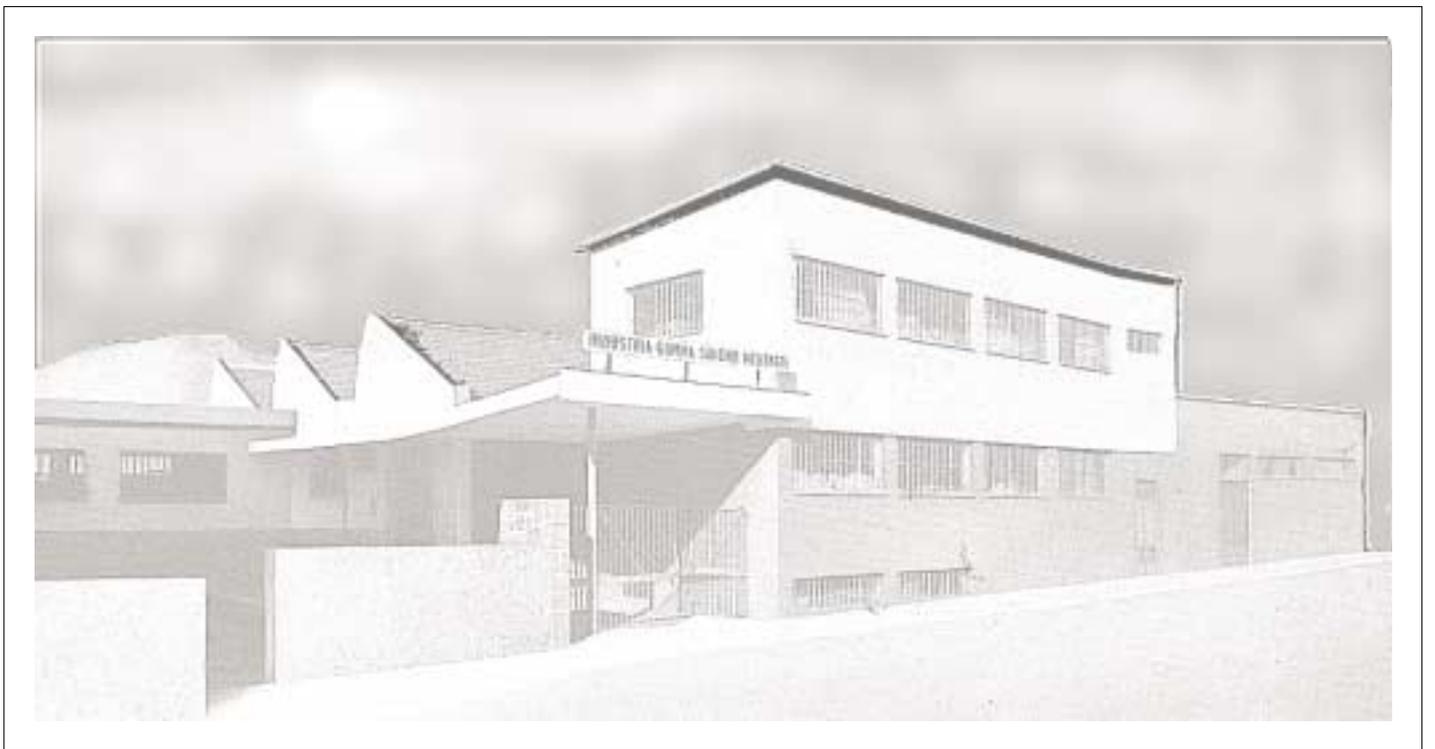

1997

" la vita sa confondere le sue tracce, e tutto, del passato, può diventare materia di sogno , argomento di leggenda . "

Giorgio Bassani

anno 1954 - Inaugurazione della nuova sede di via G.Macchi 30 a Varese.

(foto archivio ariete)

Presentazione

Dall'ormai lontano 1947 la nostra Azienda produce ricambi ed accessori in gomma, per motociclette e scooters, distribuiti con il marchio *Ariete*, fin dall'inizio sinonimo di altissima qualità.

Negli ultimi tempi abbiamo ricevuto da parte di Collezionisti e Restauratori numerose richieste di ricambi originali per moto d'epoca a tal punto da spingerci a dare uno sguardo più approfondito in " *cantina* " dove erano gelosamente conservati vecchi stampi non più utilizzati da decenni.

Questo tesoro di attrezzature, gran parte delle quali fatte a mano da valenti artigiani stampisti ed incisori di un tempo, è la testimonianza della nostra storia dell'immediato dopoguerra quando in Europa si iniziava il non facile cammino della Ricostruzione.

Stampi che hanno subito evocato ricordi lontani ed attraverso i racconti di nostro Padre, fondatore dell'Impresa, abbiamo rivissuto le emozioni, gli entusiasmi, i sacrifici uniti alla frenesia della voglia di fare e di traguardi da raggiungere tipici di quei tempi.

Grazie alla preziosa opera del caro amico *Giorgio Grassi*, dal 1947 tra i primi collaboratori dell'*Ariete*, con l'esperienza di una vita professionale interamente dedicata al mondo della gomma, è stato possibile ripristinare una linea di vecchie presse in grado di produrre, con i criteri di una volta, gli articoli originali delle moto d'epoca.

Le macchine attuali, infatti, non possono operare con le vecchie attrezzature che peraltro non sono adattabili alle presse ad alto contenuto tecnologico presenti oggi in Azienda.

Nella paziente ricatalogazione di questi articoli da restauro sono state anche rispolverate le vecchie formulazioni delle mescole di gomma per far sì che i pezzi rappresentati in questo catalogo *Old Models* siano prodotti con *macchine originali, con stampi originali e con gomme altrettanto originali.*

Procedendo inoltre in questo meticoloso lavoro di riscoperta è stato possibile riprodurre i ricambi di Marchi gloriosi quali *Sertum, Rumi, Guzzi, Mondial, MV, ISO* e molti altri che erano annoverati tra la prestigiosa Clientela *Ariete*.

Questo catalogo *Old Models* si rivolge quindi ai tanti Restauratori ed a tutti gli Amatori delle moto d'epoca che avranno così la possibilità di accedere a pezzi ormai introvabili, del tutto originali, che permetteranno loro di restaurare nel modo più fedele possibile le moto di un tempo, autentici gioielli, vanto ed orgoglio dell' Industria Motociclistica.

Varese, novembre 1995

Edoardo e Marco Mentasti

Introduction

Our company was founded in 1947, to produce spare parts and accessories for motor cycles and scooters, using the "*Ariete*" trade mark. Right from the beginning, the new brand acquired a reputation for industry-leading quality.

In response to increasing requests from collectors and restorers for scarce or unobtainable spare parts, we have decided to re-assess the contents of our tool store, which is a treasury of old dies, many of which go back several decades.

The tools involved, many of which were made by hand by artisan die-sinkers and die-cutters, bear witness to the difficult post-war period of European reconstruction. These tools have been the cause of many nostalgic discussions with the founder of the company, Sandro Mentasti, who recalls the struggles, sacrifices, enthusiasm, and sheer dynamism of those times.

Thanks to the invaluable assistance of our colleague and dear friend *Giorgio Grassi*, who has worked with *Ariete* ever since 1947, and whose entire professional life has been devoted to the rubber industry, we have been able to rebuild a line of old compression-moulding machines, on which we are able to produce many of the rubber parts needed by classic bike enthusiasts. This was necessary because the vintage tooling we have to use can not be fitted to the modern moulding machinery now used throughout the company.

In a further effort to retain originality, we scoured the company archives to find the original formulae for the materials used to make the parts needed by our customers. This means that these parts are produced on *original machinery, from original tooling, with original materials*.

Thanks to meticulous research and careful restoration work, we have been able to produce parts for such classic machines as *Sertum, Rumi, Guzzi, Mondial, MV, Iso* and many others whose producers were at the time included among the *Ariete* clientele.

This catalogue of parts for *Old Models* is therefore devoted to the many restorers and amateurs of classic motor cycles. It lists many "unobtainable" parts, which are completely original, and will contribute to the faithful completion of restoration project which are the pride and joy of their owners, and of the motor cycle industry.

Varese, november 1995
